Abstract

1 Overview of the Problem

2 Objectives of the Migration

3 Migration Strategy

3.1 Finance Legacy Application

Cloud Context

Products And Technologies

Service Models

3.2 Finance SAP PPM

Cloud Context

Products And Technologies

Service Models

3.3 Finance SAP ERP

Cloud Context

Products And Technologies

Service Models

3.4 Finance SAP IAM

Cloud Context

Products And Technologies

Service Models

3.5 Finance SAP ERM

Cloud Context

Products And Technologies

Service Models

3.6 Production Reporting Management

Cloud Context

Products And Technologies

Service Models

3.7 Production, HR Shift Management

Cloud Context

Products And Technologies

Service Models

3.8 Supply Management SCM

Cloud Context

Products And Technologies

Service Models

3.9 Quality Management QM Software

Cloud Context

Products And Technologies

Service Models

3.10 Warehouse Warehouse Management

Cloud Context

Products And Technologies

Service Models

3.11 Warehouse Deliforce

Cloud Context

Products And Technologies

Service Models

3.12 Sales, Operations, Customer Service CRM

Cloud Context

Products And Technologies

Service Models

3.13 Sales Lead Management

Cloud Context

Products And Technologies

Service Models

3.14 Sales Business Analytics

Cloud Context

Products And Technologies

Service Models

3.15 Sales Tableau (Market Development)

Cloud Context

Products And Technologies

Service Models

3.16 HR HR Software

Cloud Context

Products And Technologies

Service Models

3.17 Facility Management Facility Management Software

Cloud Context

Products And Technologies

Service Models

3.18 Several Departments Office Suite

Cloud Context

Products And Technologies

Service Models

3.19 Webshop Website

Cloud Context

Products And Technologies

Service Models

4 Cost of operations in Microsoft Azure

5 Migration Roadmap

6 Cloud Architecture

7 Standard For a Cloud Native Application
